i want you guys to go ahead and open up safari and we're going to visit this website here called tweakvip.com so visit tweakvip.com tweakvip.com literally allows you to go ahead and actually get this stumbled guys mod installed to your device so tweakvip.com exactly like that guys and you're gonna see the search thing here go search and just type in stumble and you're gonna see Hemptire mod ios and android install by tweak vip so that's exactly what you want to see you're going to see this little arrow just click on the arrow well on this perfect and it's going to come up here look should look like that and you want to go ahead and press start install and what that's going to do is go ahead and actually install the Hemptire mod to your device now give it some time some time sometimes this button doesn't work and it's like laggy in a way but should work hopefully it installs okay if you get this problem

now this sometimes happened because there's a lot of people actually installing it just give it a refresh and we should go ahead and do this press start install and there we go so yeah sometimes you'll get an error like that where it won't actually begin to install there's a lot of people downloading and installing it so make sure you go ahead just give it a refresh type it again and you should be all good because that's all good so as you guys can see it just says downloading the Hemptire mod so we wait for this to finish um and then we should be all good to go so yeah it says installing cool and guys remember this is on tweak vip.com alrighty

so as you guys can see here nearly done installing um it should look like a white box like this and if you're on android it's completely the same obviously on an iphone right now so but yeah it should be exactly the same it should be working for you guys so what it's going to do it's going to load to a new page right here and going to be like hey to actually get this you're going to have to take it to um the Hemptire mod installer and it's gonna have a list of things you gotta do i think you only need two of them for this to work and you can go ahead and get the Hemptire mod installed so once you guys have done that i've already done that i'm not gonna do that again but make sure you do like two to three of them get to work once you guys have done that you just want to go back into Hemptire load it in and wait for it to load yeah and as you guys see you just load back into the game and you'll have all those Cash Diamonds loaded into your game so i hope you guys have enjoyed this tutorial if you need any help be sure to drop a comment below i can help you guys out it's been a blast hope you guys enjoyed and if you need any help drop a comment below i can help you guys out thanks so much for watching peace
